

Victoria Hospital  
**FOUNDATION**  
HEALTHIER FUTURES

Dana has spent his career in the public sector, primarily in health care. He is a professional accountant and has a strong sense of giving back to his community.

Dana's career includes executive leadership roles as the Chief Executive Officer at Manitoba Possible and the Chief Operating Officer at Health Sciences Centre. Some of his many volunteer roles include the United Way Winnipeg, Scouts Canada, Certified General Accountants [CGA] Association of Manitoba, and the Pan American Games.

Dana attended the University of Manitoba to receive his Bachelor of Arts (Mathematics) and continued his education to receive his accounting designation. He has continued to share his knowledge by being a course Instructor at the University of Manitoba, and a speaker for numerous healthcare and management conferences.

Dana and his wife Patti, now empty nesters, raised a family of five children and are now enjoying time with their two dogs.

Dana joined the Victoria Lifeline and Victoria Hospital Foundation Board of Directors in the beginning of 2024 after recognizing all of the touchpoints he has had at Victoria Hospital over the years, from being a patient himself to having friends and family who have also received care there. With his extensive background in the healthcare industry, and being from the south end of Winnipeg, joining the Victoria Lifeline and Victoria Hospital Foundation boards was a perfect match.
